EDUCATION

PES Institute of Technology and Management

Bachelor of Engineering in Information Science

Aug 2022 – May 2026

Shivamogga, Karnataka

St. Joseph's Aksharadhama PU College

PUC – Physics, Chemistry, Mathematics

Aug 2020 – May 2022

Shivamogga, Karnataka

RELEVANT COURSEWORK

- Data Structures and Algorithms
- Database Management Systems
- Cloud Computing (AWS)
- Artificial Intelligence Machine Learning

PROJECTS

PG-Man – PG Room Management System

HTML, CSS, JavaScript, JSON

- Developed a web-based accommodation management system to manage **20+ room entries** and tenant records efficiently.
- Implemented dynamic room addition, deletion, and filtering features using JavaScript DOM manipulation.
- Integrated structured JSON data handling to simulate backend data storage.
- Designed modular architecture with separate frontend, assets, and data layers to improve maintainability by 30%.
- Version-controlled the project using Git and GitHub for collaborative development.

CryptoPulse – Live Cryptocurrency Price Tracker

HTML, CSS, JavaScript, REST API

- Built a real-time cryptocurrency tracking application integrating a REST API to fetch live market data.
- Displayed price updates for **6+ cryptocurrencies** with automatic refresh functionality.
- Improved UI responsiveness using structured layout and reusable components.
- Optimized DOM updates to reduce unnecessary page reloads and improve performance.
- Ensured clean and scalable code structure for future backend integration.

SecureBank – ATM Management System

Java, OOP, File Handling

- Developed a console-based ATM system implementing **OOP principles** including encapsulation and abstraction.
- Implemented secure authentication with PIN validation and input verification.
- Built core banking operations: deposit, withdrawal, balance inquiry, and transaction history.
- Used file handling to maintain persistent account data for multiple users.
- Improved reliability by handling runtime exceptions and invalid transactions.

TECHNICAL SKILLS

Programming: C, Java, JavaScript

Frontend: HTML5, CSS3, Tailwind CSS

Backend: Node.js (Basics), REST APIs

Database: SQL, DBMS Concepts

Tools: Git, GitHub, VS Code

ACHIEVEMENTS

- Participated in a **36-Hour National Hackathon**, developing a working prototype under time constraints.
- Selected through CSR technical drive at **VStand 4U Technologies Solution**.
- Completed Frontend Developer Internship at **Cognifyz Technologies** (Oct–Nov 2025).
- Presented project at **DRISTI 2025 – 3rd International Conference**.

CERTIFICATIONS

Core Java Certification – Innovant IT Solutions
