

MEGHARAJ P

Full-Stack Web Developer (MERN) | QA & API Automation Engineer

Gadikoppa, Shivamogga, Karnataka | +91 79759 88949 | megharajpmeghu@gmail.com | [Portfolio](#) | github.com | [linkedin](#)

PROFESSIONAL SUMMARY

Graduate Software Engineer with hands-on experience in MERN Stack Development, backend systems, and automated API testing. Demonstrated track record in developing 3+ production web applications, automating API test suites with Python and Pytest, and building custom developer tools to optimize workflows.

EXPERIENCE

Vstand4U Technologies

Feb 2026 – May 2026

Java Full-Stack Development Intern

Bengaluru, Karnataka (On-site)

- Spearheaded the delivery of 5+ full-stack feature modules using React.js and Java backend within an Agile development workflow.
- Architected 15+ reusable, component-based React.js UI components, improving interface consistency and reducing frontend code redundancy by 25%.
- Optimized database performance by designing relational schemas and authoring 30+ SQL queries for Core and Advanced Java applications.

Mekhos Technology Services Pvt Ltd

May 2026 – Aug 2026

QA Automation & Backend Engineering Intern

Internship (On-site)

- Engineered 40+ automated REST API test suites using **Python**, **Pytest**, and **Schemathesis**, reducing regression testing overhead by 35%.
- Automated mobile and web application end-to-end UI workflows using **WebDriverIO**, achieving 90%+ cross-platform test coverage.
- Validated 50+ API endpoints and performed rigorous manual testing, identifying and resolving 20+ critical edge-case defects prior to release.
- Constructed 4 global backend developer utility scripts, accelerating test data generation time by 40% for internal engineering teams.

EDUCATION

PES Institute of Technology and Management

Aug 2022 – May 2026

Bachelor of Engineering in Information Science Engineering

Shivamogga, Karnataka

CGPA: 8.4 / 10

TECHNICAL SKILLS

- **Languages:** JavaScript (Primary), Python, Core Java, C
- **AI & LLMs:** Retrieval-Augmented Generation (RAG), Generative AI, Prompt Engineering
- **Testing & Automation:** Pytest, Schemathesis, WebDriverIO (App/Web Automation), API Testing, Manual Testing
- **Frontend:** React.js, HTML5, CSS3, Tailwind CSS, Responsive Web Design
- **Backend:** Node.js, Express.js, RESTful API Design, JWT Authentication, Nodemailer
- **Databases:** MongoDB, MySQL, Query Optimization
- **Tools & Platforms:** Git, GitHub, VS Code, NetBeans, Vercel, GitHub Pages

PROJECTS

1. ShopNest

[Live: shopnest](#)

- Deployed a full-stack MERN e-commerce platform featuring real-time product filtering and a streamlined checkout flow hosted on Vercel.
- Integrated JWT authentication and transactional emails via Nodemailer; structured role-based access for buyer and admin workflows.
- **Stack:** MongoDB, Express.js, React.js, Node.js, JWT, Nodemailer, Tailwind CSS

2. Dairy Farm and Livestock Manager

[Live: dairy-farm](#)

- Pioneered a responsive MERN farm management app for digitizing livestock tracking, health records, and daily milk yield monitoring.
- Designed a Chart.js analytics dashboard processing 1,000+ data points, delivering real-time KPI visibility and saving 5+ hours weekly.
- **Stack:** React.js, Node.js, Express.js, MongoDB, Tailwind CSS, Chart.js

3. JothirPath

[Live: jothirpath](#)

- Created a pilgrimage planning platform for all 12 Jyotirlingas with interactive Google Maps route mapping and curated temple pages.
- Embedded a Kannada text-to-speech engine (Web Speech API) for voice narration, boosting regional accessibility for users.
- **Stack:** HTML5, CSS3, JavaScript, Google Maps API, Web Speech API

CERTIFICATIONS

- **Generative AI for Beginners** – SimpliLearn
- **Core Java Certification** – Innovant IT Solutions

ACHIEVEMENTS AND ACTIVITIES

- * Authored and presented a research paper at the **3rd International Conference DRISHTI-2025**, earning recognition among industry professionals.
- * Selected for the competitive **Campus to Corporate (C2C) Internship Program** at Vstand4U Technologies.
- * Competed in the **36-hour Hack for Hire Hackathon (Anveshana)**, demonstrating rapid prototyping under pressure.
